MAGNIFICATION

Getting a glimpse of what our Lord Jesus sees

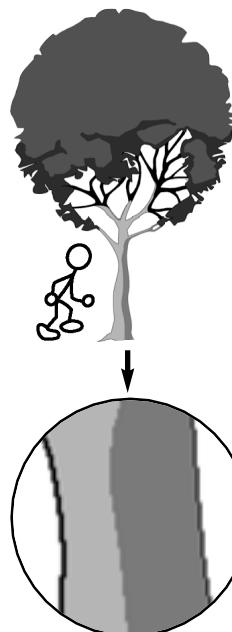

Stand
ten feet
from a
tree.

view of tree
from ten feet

Walk nine feet
toward the tree
(you're now only
one foot from it). You
have magnified your
view of the tree ten
times (10 X).

**magnification of
ten times (10 X)**

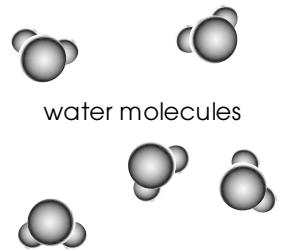

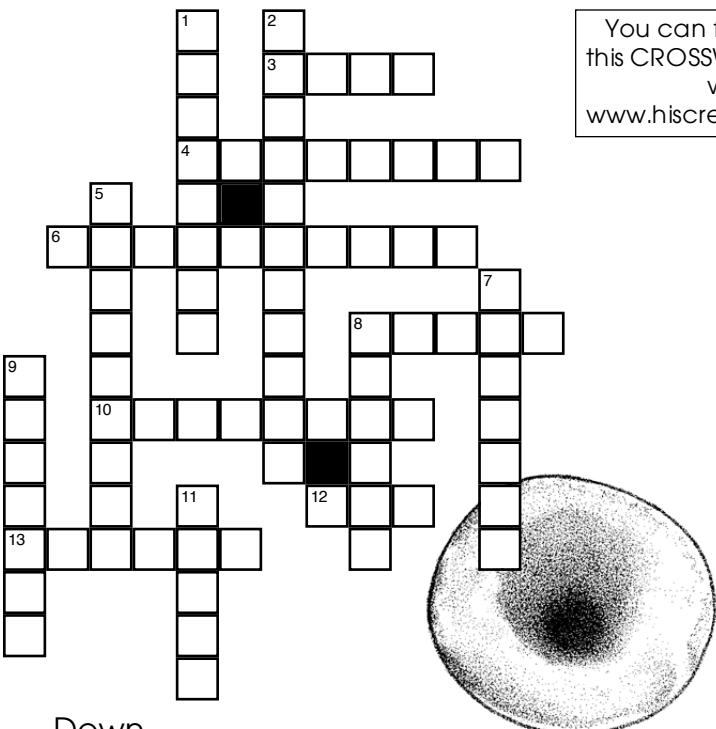

view of tree
from one foot

Jesus is God and He is
magnificent! He can see
everything in the universe, no
matter how small or far away!
Right now, He enjoys the beauty of
the most distant galaxies. And the
smallest molecules bring Him joy
because He made them with
such great skill.

*God saw all that He had
made, and it was very good
(Genesis 1:31, emphasis added).*

Down

1. Scientists believe that protons and _____ are made of quarks and gluons.
2. Blushing is caused when the _____ in your face fill with blood.

Answers to CROSSWORD found in **kids' kreation #48**

- Down:** 1. DANGER 2. SEEK 3. HATCH
4. MANATEE 5. STRENGTH
7. PLAY 10. ALIVE
- Across:** 2. SNOW 3. HUMBLE 6. WATER
8. TAG 9. GAMES
11. EVERYTHING 12. TICKLE

FAMILY ACTIVITY: **How good is your vision?**

Ask someone in your family to hold this side of the **kids' kreation** page at eye level facing you. Have them stand 20 feet away. Can you see each of the letters and arrows **clearly**? If they are not **crystal clear**, ask them to walk toward you slowly until you can see them **sharply**. How far away can you see the letters and arrows? Ask someone else in the family to try it and compare distances.

What is your favorite color?

*Can you read the question above?
If you can, you've got good close vision!*
