## INSECTS

Foreign ministers of  
Christ's holiness

Insects have three body parts:  
head, thorax, and abdomen.

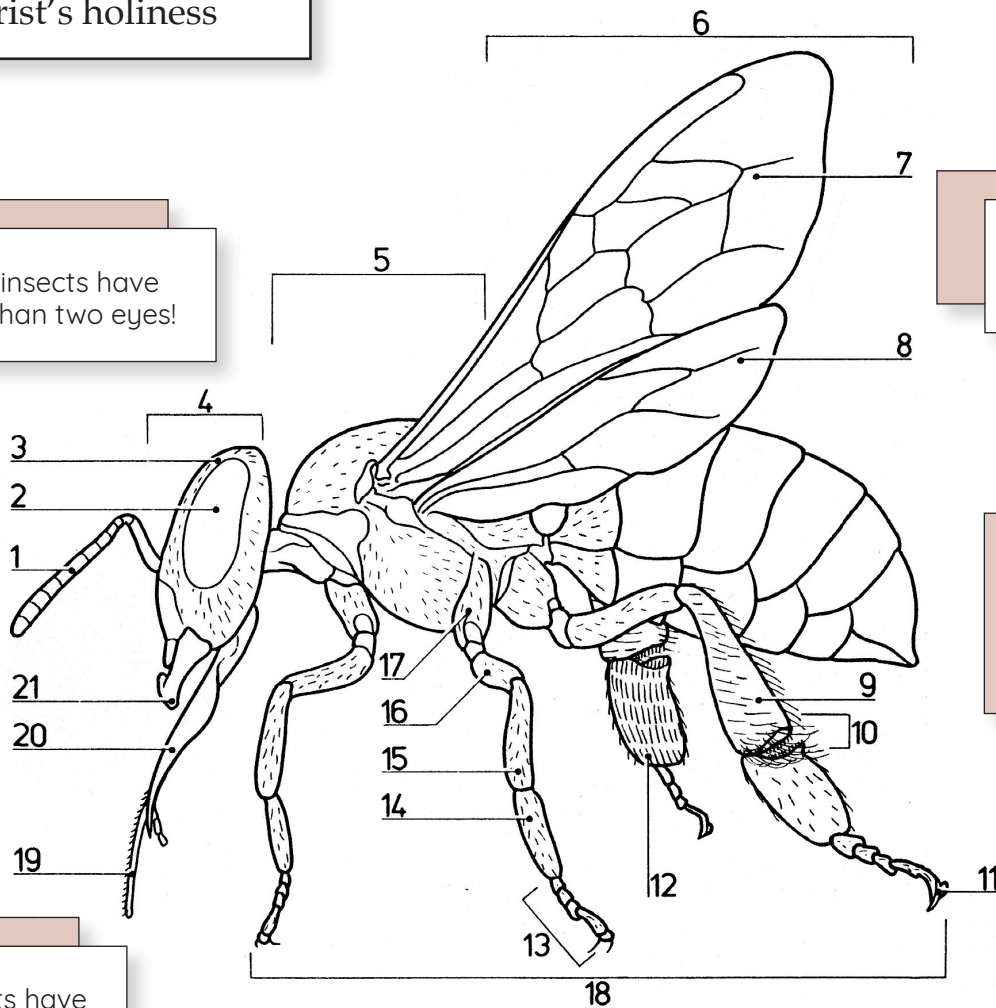

Most insects have  
more than two eyes!

Most insects  
have wings.

God  
gave all  
insects  
six legs.

All insects have  
antennae.

Insects may seem strange to us, but  
all are made by the hands of Jesus,  
and reflect His holy character.

Answers to **An Insect-Inside**  
(on reverse side)

Brain - 2	Malpighian
Stomach - 4	Tubules - 5
Esophagus - 3	Nerve - 13
Stinger - 8	Saliva Gland - 14
Venom Sac - 9	Mouth - 17

## AN INSECT-INSIDE

© DIAGRAM

Can you find the following honeybee organs in the drawing above?

(Write the number in the blank next to the name of the organ)

Brain \_\_\_\_\_  
Stomach \_\_\_\_\_  
Esophagus \_\_\_\_\_  
Stinger \_\_\_\_\_  
Venom Sac \_\_\_\_\_

Malpighian Tubes (kidneys) \_\_\_\_\_  
Major Nerve (running the length  
of the bee's body) \_\_\_\_\_  
Saliva Gland \_\_\_\_\_  
Mouth \_\_\_\_\_

## CROSSWORD

The words used in the  
CROSSWORD are taken  
from the articles found  
in **CREATOR** Volume 5  
Number 2.

Answers to CROSSWORD  
found in **kids' kreation** #25

**Across:** 1. PROTECT 5. FLOWERS  
7. BIRDS 8. FRUIT 9. GRASS  
10. MILLION  
**Down:** 1. POLLINATION 2. TREES  
3. HOLINESS 4. ANTHER  
6. STIGMA 9. GOD

### Down

- Honeybees can see \_\_\_\_\_ light, but we cannot.
- God gave insects \_\_\_\_\_ body parts.
- A typical insect has two \_\_\_\_\_ eyes and three simple eyes called ocelli (oh-SELL- eye).
- An insect can use its \_\_\_\_\_ to smell and hear.
- Insects always have \_\_\_\_\_ legs.

### Across

- Jesus attached an insect's legs to its \_\_\_\_\_.
- Insects have a head, thorax, and \_\_\_\_\_.
- \_\_\_\_\_, birds, and bats are the only animals that can truly fly.
- Some insects have two \_\_\_\_\_, while others have four.
- Christ made the exoskeleton of an insect out of \_\_\_\_\_.
- Many insects can taste food using their \_\_\_\_\_.
